* Books/materials marked with an asterisk are required on the first day of class.

We make every attempt to maintain a current book list; however recent purchases may effect the cost and may not be reflected on this list. Check with the bookstore for the current cost.

Used books may be available for purchase. Please use exact ISBN when ordering through outside vendors.

All books/software are required in their respective programs unless it is marked with an "O". Students may purchase them at different times throughout their training plan. Please check with faculty for direction on when to purchase your textbooks.
